Dear Mr. York:

Subject: Well 40H Mechanical Integrity Test (MIT) Amended Variance Request Approval
UIC Permit Number: UTU-19AP-1C3C2E8

The Division of Water Quality (DWQ) has completed a review of the Amended Variance Request dated December 23, 2013. It appears and the variance request approved on July 22, 2013 is no longer necessary and the well can now be operated under normal MIT testing protocols.

This is hereby approved. Well 40H will now be operated under normal MIT procedures.
